

*The materials and detailing of this Satellite mail distribution and consolidation station needed to match the design scheme of an adjacent systems furniture installation.*

*Hamilton Sorter combined wood veneers, moldings and tinted Plexiglas doors to create a functional solution that perfectly complements the customer's interior design treatment.*

## Satellite Stations

*Hamilton's Satellite Stations serve as a distribution point for employee mail pick-up and consolidate outgoing mail and other materials in bins positioned under drop slots in the counter top..*

*Located in "front office" and high traffic areas, these modular units must frequently reflect adjacent design themes. Hamilton's Modular Casework solutions for Satellite Stations are available in a variety of materials, including laminates and wood veneers to complement a customer's interior design requirements.*

*Hamilton Sorter Casework features:*

- *Wall-to-wall fit for a custom millwork look*
- *Precision factory craftsmanship*
- *Modularity for easy reconfiguration or future add-ons*
- *7 year depreciation life vs. 31 years for millwork*
- *Limited lifetime warranty*
- *Quick on-site installation*
- *Availability in standard or customer specified colors and finishes including stainless steel and chemical/bacteria resistant surfaces*
